HARMONIOUS DESIGN.

Seamlessly spacious living areas spill onto the sun-drenched terrace with integrated gas BBQ, perfect for entertaining all year round. The brushed nickel tapware and sculpted marble kitchen island bench are a bold nod to luxury, while the relaxing coastal palette of muted tones and textured surfaces evoke pure tranquillity. Fresh ocean air and sunlight scatter throughout, creating a peaceful ambience.

WAVES IN TRANSLATION.

The interior design of the building draws inspiration from the waves, adopting a gracefully curved motif that pays tribute to the monolithic form of the structure. The curved windows and skylights deftly play with light and shadow, casting a gentle glow upon the textured walls and imbuing them with vibrant vitality. The elegant design feature runs seamlessly throughout the space, imparting a sense of sophistication and refinement to the overall aesthetic.

LE ONDE'S VISIONARIES.

ARCHITECTS

DKO

DKO was founded in 2000. Its founding partners Koos de Keijzer and Zvonko Orsanic were keen to independently implement their own vision: the creation of ingenious spaces that are appreciated by the eyes, mind and soul alike.

Within a decade the practice – with Koos de Keijzer as Principal – has grown from its humble beginnings to a design powerhouse in the Asia-Pacific region. DKO is a multidisciplinary team of more than 200 professionals working across six offices in Australia, New Zealand and South East Asia.

At DKO we approach all projects with our heads firmly on our shoulders. We utilise logic to interpret our canvas into unique and effective designs. We aim to be as culturally aware and people savvy as possible to understand and appreciate the different ways they tick. We open our minds to the creative possibilities and rely on a solid and united team to implement them.

DKO has already cemented itself as being at the forefront of residential design. Still in the pipeline are countless more diverse projects from bespoke residences to luxury hotels, unique hospitality and workplace interiors, urban design and large-scale master planning, testament to the versatility of DKO's design team. With the planet's economic, cultural and environmental futures already highly capricious, architecture is one method we can use to control and to adapt to changing times.

Finally, we never lose sight of the most fundamental quality that connects all great design – people. Through human understanding, we maximise potential and can deliver architecture at its utmost excellence.
