Navigate Insurance Advisors

A human GPS for your insurance needs.

If you want an insurance broker who knows the ropes really, really well but doesn't come with the excess stress, confusion and time wasted—there's us!

Navigate Insurance Advisors are highly-experienced and qualified professionals who have advised on policies and claims for the past 15 years.

When it comes to business insurance, public liability, professional indemnity and construction, we're who you call.

Now, you know we're qualified and experienced. But it doesn't tell you much about who we are—or why we make our competitors envious.

Here's five reasons why we're a breath of fresh air.

1. **We work for YOU, not the insurer.** We go above and beyond to get you what you're entitled to. *(Sounds good, right?!)*

2. **We literally save you time, and energy so you can concentrate on what you do best**, while we do the heavy lifting. *(We just cleared up your schedule. You're welcome.)*

3. **We make complicated jargon simple.** We leave out the confusing language and industry buzz words. We explain the important details in terms that don't make your eyes glaze over. *(Cheers to that!)*

4. **With us, there's never a silly question.** We're patient and great listeners. Our door is always open. We're available to talk whenever you need. *(Add us to your speed dial.)*

5. **We're on your side.** A call centre can't advise you, we can. We're here to make a difference in your business and life. *(Ah, living the good life!)*

Simply put, with Navigate Insurance Advisors, you're not just another number.

Peter Boshell

Meet the man navigating your insurance, Peter Boshell, the director of Navigate Insurance Advisors. He left the corporate world to make a difference in the lives of those around him. He wanted to show people that insurance can be personable and fun when dealing with people who love what they do.

With his approachable and down to earth nature, coupled with his extensive knowledge of the insurance industry, it's no wonder Navigate has become the people's choice in not only the Macarthur region but also beyond.

Peter has a genuine interest in providing his clients with peace of mind when it comes to all things insurance. He's dedicated to making complex issues simple to understand, and in doing so, Navigate Insurance proves time and time again to be a local brand you can trust.

Peter wants the best for his clients in the same way that he strives to be a reliable family man, and as consistent as he is with improving his golf game—an all time high standard!

"I enjoy helping people understand the risks they face in their business, and support them to understand the ways they can protect themselves from these risks—and get them the results they're entitled to when making a claim."

Kelley Goldstraw

Kelley Goldstraw brings creativity and a determined attitude to Navigate Insurance Advisors.

With over 10 years of experience working in the insurance industry, she's acquired a wealth of knowledge in business development & specialises in high-hazard property and liability businesses.

Kelley's areas of expertise span both the Far North Queensland and NSW markets, specialising in higher hazard and cyclone exposed risks where she prides herself on providing targeted risk management solutions.

Having grown up in the Macarthur region, she understands the business concerns and issues the locals face; it's why she's made it a priority to become a leader for the local market.

Her desire to foster genuine and mutually beneficial client relationships within the community is why she's become the professional people trust. Kelley's focus is always directed at ensuring her clients' business exposures are covered, and that they know they're in the best hands.
